Cuyahoga Falls Country Place - "The Community of Caring"

When I first took the position as Director of Marketing at Cuyahoga Falls Country Place I sampled several vendors for promotional materials. I found out quickly that there was a definite difference with Lighthouse Promotions.

The most notable difference was the fact that I was listened to. I am always looking for something that will make me stand out from the others and Lighthouse finds it for me. A generous amount of time is devoted to showing me unique and memorable promotional items.

After performing several audits I was able to confirm a 69% increase in name recognition and a 27% increase so far in census.

The service from Lighthouse is fantastic. I receive product fast, excellent quality and the best prices. I carry Lighthouse business cards with me because I am always asked where I get my great marketing products and am pleased to share the information with all of those I network with.

I am delighted to be working with Lighthouse Promotions.
